News

SOME STYLES WERE DESTINED TO BE TIMELESS.

The most comforting thing about choosing a timeless design is always knowing you've made the right decision. With clean lines and rich, traditional styling, there's no denying Moen creates quality that withstands the test of time. How refreshing is that? The Brantford® faucet from Moen. Designed for life. Yours.

BLÜCHER
A Watts Water Technologies Company

STAINLESS STEEL DRAINAGE SYSTEMS

Drainage by Design

When you're designing a drainage system, whether it's a commercial kitchen, resort hotel, or sanitary manufacturing facility, your specification can make all the difference. Every aspect, from surface drainage to piping, can contribute to the optimum design.

At BLÜCHER, we support the pursuit of efficient and effective specifications. That's why we fabricate all our drainage systems in stainless steel - a conspicuously superior material. BLÜCHER drainage systems combine functional durability and aesthetics to create classically flawless systems. And because BLÜCHER is now a Watts Water Technologies company, you can specify it with confidence.

Find drainage systems and all the inspiration you'll need at BLUCHERdrains.com.

Just Add Water

331 Portable Transfer Pump

Finally, a portable water pump that is as versatile as the job demands. Need to drain a water heater fast? The 331 from Liberty can do it in minutes! How about draining a pool cover, filling a livestock tank or removing water from a flooded area? The 331 is up to the task with features like an extra-long power cord, convenient on/off switch and hand-tighten prime plug that requires no tools.

The new 331 from Liberty... Portable. Powerful. Versatile. All you have to do is add water!

1/2 hp, 115 Volt.
Maximum pumping head - 105 feet.
Maximum suction lift - 15 feet.
Maximum pressure boost - 40 P.S.I.
Not for use with chemicals or flammable liquids.

Liberty Pumps
Innovate. Evolve.

Our Lo-V.O.C. Cements
Can Help You Qualify for LEED Points 

Oatey Plastic Pipe Cements, Primers and Cleaners are covered in LEED-NC 2.2 in the Indoor Environmental Quality Section, Credit 4.1, Low-Emitting Materials: Adhesives and Sealants. This section requires that these and similar products used in the construction of the building meet the requirements of South Coast Air Quality Management District Rule 1168.

Oatey Lo-V.O.C. plastic pipe cements and primers meet or exceed this requirement and therefore comply with the requirements of the LEED rating system. They are available in a variety of formulas, PVC, CPVC, ABS, Transition and All Purpose to meet a variety of plumbing applications.

But Did You Also Know...

A minimal amount of packaging is used to insure Oatey products arrive safely to their end destination while avoiding excessive and unnecessary material consumption.

Our Distribution Center located in Cleveland, Ohio is LEED Certified and was built to reduce the impacts of natural resources consumption, reduce operational costs, enhance associate comfort and health and minimize strain on local infrastructures.

We utilize FSC approved paper stock for product labels to ensure our sources come from sustainable forests.

The cans that contain our solvent cements are made up of 63% recycled steel.

Visit our website www.oatey.com for more information.

VISIT THE NEW WEBSITE!
WWW.THEPLUMBINGNEWS.COM

The Plumbing News is excited to introduce our new interactive website. Readers can now access stories from six states before they are published in our newspapers and share them with friends on social media networks like Facebook & Twitter. You can also sell trucks, buy equipment, subscribe to our e-news or digital green editions, watch streaming video and discuss industry related topics in our Plumbing Forum.

READ OR PRINT ARTICLES FROM ANY OF OUR ISSUES FROM THE LAST 6 YEARS!

Don't sweat it. ProPress it!

Why use Press Fittings over Sweat Fittings?

In the study below it took 50% less time to install a typical restaurant bathroom with ProPress over sweating fittings. This will allow for jobs to be completed quicker, on time or ahead of schedule.

Press Fittings vs. Sweat Fittings

Only Viega ProPress fittings and valves offer the Smart Connect® feature, a quick and easy way to identify connections that need pressing.

During pressure testing, water or air flows past the sealing element indicating an unpressed fitting. The Smart Connect feature has assured millions of leak-free connections for water and gas applications. ProPress is approved for potable water, fuel gas, marine and stainless steel applications. Viega ProPress fittings carry a 50-year warranty for copper.

www.viega.com | 1-800-976-9819

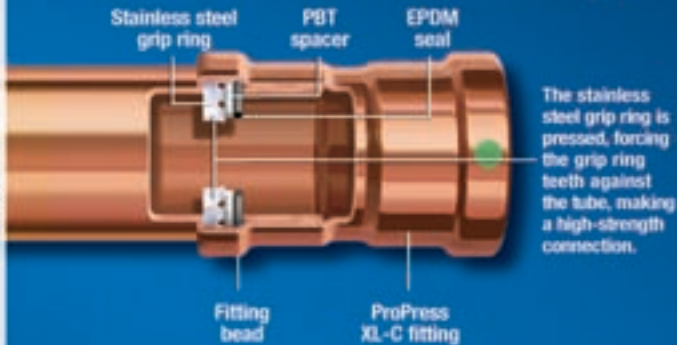

ProPress 1/2" to 2" fittings.

An unpressed connection with the Smart Connect feature allows liquids and/or air to pass by the sealing element during pressure test.

Connection is pressed in front of, on top of, and behind the seal making a gas or water-tight seal. The Smart Connect feature is sealed during pressing.

ProPress XL-C 2-1/2" to 4" fittings.

The stainless steel grip ring is pressed, forcing the grip ring teeth against the tube, making a high-strength connection.

Press technology...
The inside story.

The 1,000,000th Bradford White ICON System™ Water Heater!

It's hard to beat a solid track record. As we start our second million, we know success breeds imitators. Other similar valves will hit the market, but they have a lot of catching up to do before they achieve the reliable performance and stellar reputation of The Bradford White ICON System™.

Having the well tested, proven technology of over one million Bradford White ICON System water heaters in the field is a statistic you and your business can depend upon.

If you haven't tried the ICON system, here's another reason to make the switch. The Bradford White ICON System remains

the only "wholesale only" intelligent gas control valve sold exclusively through plumbing professionals,

Bradford White would like to thank all of you who have embraced this innovative technology and made the ICON System the incredible success it has become.

Watch for the installation of the 1,000,000th Bradford White ICON System water heater. One lucky homeowner will get the water heater installed absolutely free, along with the full complement of ICON System Accessory Package! Visit www.bradfordwhite.com for full details!

ZURN

Be a Step Ahead with Zurn and Building Information Modeling

ZURN ENGINEERED WATER SOLUTIONS™ 3D CAD FILES NOW AVAILABLE

At Zurn, we know that the requirements for design and construction professionals are ever-evolving and the bar for a higher standard of informational competency is rising. As a leader in the industry, we are committed to helping specifiers create a framework for interoperability, making projects more efficient and cost-effective. That is why we are pleased to make 3D CAD and Revit files available for a wide range of our products.

Files for Wilkos Backflow Preventers, Zurn Floor and Shower Drains, Carriers, Fittings, Flush Valves and Faucets are now available in RFA, DWG, and DXF formats at www.zurn.com

Speedfit®

The Push-Fit Solution For Plumbing and Heating Systems

Of course not.

Years ago no one knew the AB1953 Legislation was coming.
But we've *always* been in compliance, by keeping lead out of
virtually all of our plumbing products

Can your fittings supplier say the same?

 **John Guest**[®]
Website: www.johnguest.com
